8 Feb 1949

Information Officer, Office of Policy Coordination

Chief, FBIB

Clandestine Yugoslav Radio

1. A new Yugoslav clandestine transmitter has been heard daily in London and Cairo since 28 January 1949 broadcasting on 6695-6710 kcs. at 0115 and 1600 hours EST. Reception is very poor but intelligible fragments yield a slogan "Sloboda Ili Smrt (Freedom or Death)" and indications of anti-Tito, pro Mihailovic control. The name "Ravna Gora" occurred several times in the broadcast of 31 January 1949.

2. The majority of transmissions are rendered completely unintelligible by intentional jamming of undetermined origin, which however the clandestine station seeks to escape by shifts of frequency with occasional success.
